EDUCATION

National Institute of Technology, Patna

Bachelor of Technology - Electrical Engineering | CGPA: 7.56/10

Patna, India

2023 – 2027

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript (ES6+)

Frontend: React.js, Tailwind CSS, Framer Motion, HTML5, CSS3

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Database: MongoDB (Mongoose ODM, Atlas), SQL

Tools & Platforms: Git, GitHub, Docker, Postman, VS Code,

Core Competencies: DSA, OOP, DBMS, Operating Systems

PROJECTS

Ventro — Full-Stack Event Management Platform ([GitHub](#))

2026 – Present

- Architected a production-grade MERN stack event platform with **Role-Based Access Control (RBAC)** — separating organizer and attendee permissions via **JWT-based auth middleware** and MongoDB schema-level enforcement.
- Engineered **real-time email notification pipelines** using Nodemailer and node-cron, automating registration confirmations, event reminders 24 hours before start, and booking receipts for 100% delivery reliability.
- Integrated **Razorpay payment gateway** with webhook-based order verification and **idempotent transaction handling** to prevent duplicate bookings under concurrent requests.
- Designed RESTful APIs with **Mongoose ODM** for complex relational queries (event ↔ attendee ↔ payment), Joi schema validation, and centralized async error handling middleware.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, JWT, Razorpay, Nodemailer, Tailwind CSS, Framer Motion

WANDERLUST — Full-Stack Travel Accommodation Platform ([GitHub](#))

2025

- Built an **Airbnb-inspired MVC-architecture platform** with session-based authentication (Passport.js), property CRUD, and multi-image uploads streamed to **Cloudinary CDN**.
- Integrated **Mapbox Geocoding API** for real-time property geolocation, rendering interactive listing maps with custom markers and viewport clustering.
- Implemented **server-side validation with Joi schemas**, custom error-handling middleware, and flash messaging to ensure consistent UX feedback across all failure modes.
- Achieved **full CRUD authorization** with middleware-level ownership checks — preventing unauthorized property edits via direct API calls bypassing the frontend.
- **Tech Stack:** Node.js, Express.js, MongoDB, EJS, Passport.js, Cloudinary, Mapbox, Bootstrap, Joi

HONOURS AND ACHIEVEMENTS

- **Knight** on [LeetCode](#) (Max rating 1954+)
- **3 Coder** on [CodeChef](#) (max rating 1610) and **Pupil** on [Codeforces](#) (max rating 1349).
- **Advanced to Round 2 of Infosys HackWithInfy** — among top competitive programmers nationally.
- **Round 2 of Adobe India Hackathon 2025** — selected for software innovation challenge; built and presented a functional prototype.

POSITION OF RESPONSIBILITY

Event Lead | Robotics Club, NIT Patna

2024 – 2025

- Organized **5+ technical workshops** and **2 annual flagship events**, coordinating 200+ participants and managing a team of 10 volunteers.
- Led end-to-end event planning including venue coordination, speaker outreach, and on-ground execution for the club's largest annual robotics competition.
